

Cat. No. 33-1114

In-Ear Lightweight Headphones

Your Radio Shack In-Ear Lightweight Headphones are ideal for portable stereos and CD players — perfect for the sports enthusiast on the go. They're even water resistant! The headphones' high-energy dynamic elements deliver a wide frequency response for impressive portable sound in a lightweight, in-the-ear design.

The headphones' features include:

High Energy Neodymium Iron Boron Magnets — deliver high-quality sound in a lightweight package.

Adjustable Stainless Steel Headband — accommodates any head size.

3-Foot Flat Y-Cord with 1/8-Inch Jack — for flexibility and convenience of movement.

The In-Ear Lightweight Headphones have a frequency response of 20–20,000 Hz, with a total harmonic distortion of less than 1% at 95 dB SPL at 1 kHz.

OPERATION

Caution: Turn down the volume on your sound source before plugging in the headphones.

1. Plug the headphones into a 1/8-inch stereo jack.

2. Adjust the headband for a comfortable fit.

3. Adjust the sound source's volume to a comfortable level.

Listening Safely

To protect your hearing, follow these guidelines when you use headphones.

- Set the volume to the lowest setting before you begin listening. After you begin listening, adjust the volume to a comfortable level.
- Do not listen at extremely high volume levels. Extended high-volume listening can lead to permanent hearing loss.
- Once you set the volume, do not increase it. Over time, your ears adapt to the volume level, so a volume level that does not cause discomfort might still damage your hearing.

Traffic Safety

Do not wear headphones while operating a motor vehicle or riding a bicycle. This can create a traffic hazard and is illegal in some areas.

Even though some headphones are designed to let you hear some outside sounds when listening at normal volume levels, they still present a traffic hazard.

Important: These headphones are water-resistant, not water-proof. Do not submerge in water.

OPTIONAL ACCESSORIES

Stereo-to-Mono Adapter (Cat. No. 274-368) — lets you connect your stereo headphones to any monaural source, such as CB sets, short-wave radios, and mono audio equipment.

20-Foot Extension Cable (Cat. No. 42-2462) — lets you move about comfortably while listening.

Stereo Y-Adapter (Cat. No. 274-313) — lets you connect two sets of stereo headphones to one stereo headphone jack.

RADIO SHACK LIMITED WARRANTY

This product is warranted against defects for 90 days from date of purchase from Radio Shack company-owned stores and authorized Radio Shack franchisees and dealers. Within this period, we will repair it without charge for parts and labor. Simply **bring your Radio Shack sales slip** as proof of purchase date to any Radio Shack store. Warranty does not cover transportation costs. Nor does it cover a product subjected to misuse or accidental damage.

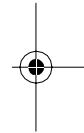

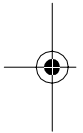

EXCEPT AS PROVIDED HEREIN, RADIO SHACK MAKES NO EXPRESS WARRANTIES AND ANY IMPLIED WARRANTIES ARE LIMITED IN DURATION TO THE DURATION OF THE WRITTEN LIMITED WARRANTIES CONTAINED HEREIN. Some states do not permit limitation or exclusion of implied warranties; therefore, the aforesaid limitation(s) or exclusion(s) may not apply to the purchaser.

This warranty gives you specific legal rights and you may also have other rights which vary from state to state.
